KEYNOTE SPEAKER
Dr Roger Clarke

Roger Clarke is a consultant and academic with a particular focus on strategic and policy aspects of eBusiness, information infrastructure, and dataveillance and privacy.

Dr Roger Clarke is the Principle AL Xamax Consultancy Pty Ltd and a Visiting Professor at UNSW and ANU.

Roger Clarke is a consultant and academic with a particular focus on strategic and policy aspects of eBusiness, information infrastructure, and dataveillance and privacy.

His degrees are from the University of New South Wales (UNSW) and the Australian National University (ANU) and he is a Fellow of both the ACS and AIS. He spent a decade as a senior academic at ANU before returning to full-time consultancy 20 years ago. Roger was a member of the Committee that established the ACIS conference series in 1990. He has held Visiting Professorships in Bern, Linz, and Hong Kong. He also

continues as a visiting Professor in Cyberspace Law and Policy at UNSW and in Computer Science at ANU.

His website provides access to most of his 150 refereed publications and to many other papers. The site has accumulated 50 million hits since it was launched at the beginning of 1995.

Roger Clarke has long been active in consumer and privacy advocacy. He is Company Secretary at the Internet Society of Australia, and recently completed an 8-year term as Chair of the Australian Privacy Foundation.

ACIS 2015,
Nov 30th - Dec 4th

The 26th Australasian Conference on Information Systems will be held at the University of South Australia, City West Campus.

The Australasian Conference for Information Systems (ACIS) is the premier conference for Information Systems academics and professionals covering technical, organisational, business and social issues in the application of information technology.

This conference will showcase the contribution of Information Systems in the Age of Big Data with a top-quality collection of paper presentations, workshops, tutorials and panels in the application of information technology.

A rich collection of thematic tracks is planned in emerging technologies, social media and social technologies, information ethics and society, demographic and cultural diversity and information systems and governance.
